

STOP HAULING WASTEWATER

EVAPORATE IT FOR AS LITTLE AS 10¢ PER GALLON

Shrink down the volume you pay to haul away...buy, or lease a water evaporator

Water Maze water evaporators use high-efficiency heat transfer and injection technologies to reduce water volumes, which slashes your off-site disposal costs.

Reduce Disposal

Lower disposal costs by as much as 95%

Reduce Liability

Less wastewater for disposal limits your company's exposure to RCRA cradle-to-grave regulations

Increase Profitability

Disposal costs savings translate into a fast ROI — often in less than one year

Your Water Treatment Technology Partners for Wash Water & Industrial Water Treatment

waterAze
WATER TREATMENT SYSTEMS

HBG Evaporator

TECHNOLOGY

Hot Plate
Floor heater with a high efficiency
combustion chamber

EVAPORATION RATES

Up to 30 GPH

BTU

Up to 390,000

WB Evaporator

TECHNOLOGY

Submerged combustion
Direct injection of heat into water for
100% heat exchange efficiency and
up to 34% fuel savings

EVAPORATION RATES

Up to 120 GPH

BTU

Up to 1,142,000
